

## Nortech Bulletin

Issue 32 - Summer 2017

### See us at Norbain's Bolton Roadshow

Nortech will be showing ANPR at Norbain's Roadshow on July 20th.

Norbain's road show will focus on "**integration in action**" showing how individual items can be integrated into dynamic security solutions.

In just 5 minutes, we will demonstrate how our Access Control Software integrates with a range of long range identification solutions. Click to [Register](#) today!

## Nortech Customer News

### ANPR at Chatham Historic Dockyard

Read our [case study](#) on how Kent based SBR Steris was asked to provide an access control solution for [Chatham Historic Dockyard](#) which sees 170,000 visitors annually.

The site had several manually operated vehicle security barriers but it needed to improve traffic flow.

## Nortech Product Update

### Long Range Remote Access Control

Do you need simple long range access control system? Nortech's [UltraPass](#) is

small yet offers high performance UHF remote control with a reading range of up to 100 metres and weigand output.

Receivers and access controllers can be installed at several sites allowing the same **keyfob** to permit access to multiple sites according to individual access rights.

## And Finally Staff News

### Steve Completes Berlin Challenge !

Nortech's MD Stephen Blackler completed yet another enduring challenge in support for David Sheldrick's orphan-elephant rescue and rehabilitation program in East Africa.

After climbing Mount Meru, Tanzania's second-highest mountain last year, Stephen this year took on the Berlin Velothlon. Read our [blog](#) to see how he got on.
