

Nortech Bulletin

Issue 31 - Spring 2017

See our parking solutions

Nortech will be exhibiting at **Parkex**, Europe's largest show on 4th - 6th April at Birmingham's NEC.

Along with our technology partners, Nortech will be demonstrating solutions that can be applied to parking and security applications.

With **two new product launches** and a full range of vehicle access control solutions, it is now time to come and find out how we can help you build solutions for your customers' needs.

Nortech Customer News

ANPR at Nottingham Park Estate

Nottingham Park Estate renowned for its Victorian architecture & gas street lighting, needed a reliable vehicle identification system to replace its ageing HyperX long-range RFID tagging system to control vehicle access at the estate.

Sitewatch Fire & Surveillance Ltd, a leading security systems consultant, installer and operator based in Cheshire worked with Nortech to identify a suitable upgrade solution.

Nortech Product Update

New Variable Message Sign (VMS)

Nortech are pleased to be launching a new **Variable Message Sign** (VMS) at **Parhex** which incorporates high intensity RGB technology and seamless integration with our **NorParc** car park counting system.

And Finally Staff News

Deb Jones

We are very happy to announce this Friday that Deborah Jones (Debs) has been a very loyal member of our sales team for 10 years.

I'm sure all our customers would like to join us in congratulating Debs on succeeding in the role with a very positive and professional attitude.

Since she started in 2007 her role has grown and she has always maintained a very calm helpful vibe within the sales department. Debs has also had a lot of input in making the department a success.

We look forward to another decade and hope her collection of **Meerkat** dolls in the office doesn't mean she is thinking of starring in the opening scenes of Coronation Street.

Thank you Debs.
